Master's field of service by providing another complete set of vehicles through which the Master may work; and in turn the student receives of the great store of the Master's Gifts and Light. So, My dear children, at this Thanksgiving Season, I render to you My sincere gratitude for giving Me your attention, and for permitting Me to serve you.

All My Blessings and Love be ever with you.

Blessed Ones desiring to Comfort Humanity:

I thank you for your willingness to let go of old concepts and desires folded away in the etheric garment for centuries in order that you can better serve in God's Plan, free from spiritual arrogance and intellectual pride, and so I humbly refer you to a description of the beloved planet Uranus.

THE PLANET URANUS

Dear ones:

For a group to bring through from the Higher Realms those Truths which will be of benefit to the great minds that are to come in the future, it (the group) cannot work with the accumulations of the past; so I am grateful for your humility in choosing to draw forth Truth, even if it is discomforting to the outer consciousness.

Looking upon the planet Earth with inner sight, great tides can be seen of what We call psychic or astral matter. These are born in the mental and feeling worlds of the people on Earth. These tides are definite strata, and as everything works on vibration - water seeking its own level for instance - so do vibrations of a similar nature

seek their level. Every vibration of hate, jealousy, obscene thought or feeling becomes a channel into that river of like vibration. These vibrations cause a rent in the Tube of Light and again connects the lifestream with the mass tide. I say to you - NEGLECT NOT TO CLOTHE YOURSELVES IN YOUR TUBE OF LIGHT!

On Earth today, you have a double activity. You have the inward or sideways motion of your planet toward your physical Sun, and then, at a Cosmic Moment, you have the upward-moving activity of your entire planetary system toward the Central Sun of the entire system. You have your Earth, which is number four; Uranus which is number three; Aquaria which is number two; and Mercury which is number one - these planets all belonging to Helios and Vesta. The Earth will move into the orbit of Uranus; Uranus will move into the orbit of Aquaria; Aquaria will move into the orbit of Mercury; then Mercury will move into the Heart of Helios and Vesta.

Now with the fourth planet of this system moving into the third place, Uranus, this gives you some understanding of the Uranian planet. The people on this very large planet of Uranus have developed beyond disease, death or decay. They are seven to eight feet tall, golden-haired, and are particularly concerned with the New Age. The present enthusiasm for Uranium on Earth is no accident - some individuals from there having come here to help in the transition. The radiation and outpouring of their presence have created uranium deposits - a gift of this great planet to Earth. We sometimes smile at the tremendous 'search for Uranium' today. It is a gift because of some individual who magnetized and

drew the very substance of the Uranian planet into the Earth plane. This is not cosmically important, but it is mentioned because of what interest it may be to some of you.

Now the planet Uranus is going to enter into the orbit of Aquaria. You have heard much about the Aquarian Age. This is because Uranus will enter into the Aquarian orbit; then the Earth, entering the Uranian orbit, will be ready on the next wave to step into the Aquarian orbit. These facts have come through from various individuals because you have people here from Uranus, from Aquaria, and from Mercury at the present time. Each brings some memory of their planet and their evolution.

The present Solar System, as studied by astronomers, is not accurate because of the fact that a galaxy moves in a spiral activity, you see, and it is in constant motion. They spot stars but do not get the properly timed perspective. They pick up stars which are in different systems belonging to one galaxy. The changing of the outer records of astronomy will come through, perhaps not in your day, but at least some of it will be recorded in your day, and you can have this for your own private use; then when the wisdom of the Great Law sees fit, perhaps part of it can be given forth publicly.

On Uranus, the center of the entire planetary scheme is built around the Spiritual Priesthood. The people are trained from childhood in the rites of invocation and radiation; in the powers of levitation, precipitation and etherealization. The Ascended Masters and Cosmic Beings walk and talk with them as you walk and talk with each

other. There is no veil, no maya, no human creation around the planet Uranus. It is marvelous to see what an evolution can accomplish when there are not those tides, of which I spoke before, to hinder the expansion of the Immortal Flame within the heart and the Divine Pattern externalized through that Flame.

Their buildings are colossal. Having the powers of levitation, there is no need for mechanical machinery. Everything is done by mind force; the coloring is done by feeling. Their atmosphere is perfect. The moisture does not come in rainfall but by a coarse substance that comes through what is similar to your earth. The very earth body itself of Uranus is a beautiful green instead of brown. The moisture comes through this porous substance; fills their lakes and rivers and cisterns; and fills the atmosphere with the necessary moisture.

Let us say that a citizen decides to create a Temple or a lovely home. He takes mind force; directs his attention to the God-Self or perhaps to some Master who is developed in the art of architecture (like Serapis Bey is in regard to the Earth). Then, through mind force, he cuts his design and builds. Buildings are mostly open to the sky; some have canopies for beauty's sake, but not for protection from the elements, because there is no need for it. When you come to the great Temple work, the Priesthood alone works on that. The Priesthood draws from the Universal First Cause the design and pattern. When these patterns have been received by the Priesthood, they are then imparted to the ones who will participate in the building, in the same manner that Sanat Kumara imparts the Thoughtform of the

year to the great Hierarchy. Then the Temples are builded. The water is aquamarine; the landed surface is green; the verdure and growth variegated in color.

In the establishment of a contact between Uranus and the Earth, the important thing to realize is that the Earth's next step will be to enter into the socket of Uranus on a sidewise motion; then when the upward motion takes place, the Earth will move upward into the place in the planetary system above, now occupied by Venus. So, at the present time, you have people from Venus and Uranus here. This, dear ones, may be a little complicated for some of you to understand at this time, and your patience is appreciated, but it might give you a small glimpse of Our endeavors. My love enfolds you - each one.

Blessings and Love,

MAHA CHOHAN
